TO Whom it may concern

RE Trent Lane Depot warehouses

Dear Sir or Madam:,

Sneinton Alchemy is a community interest company working for the benefit of the people, businesses and environment in Sneinton. Part of our remit is to look at the heritage of the area and work to ensure its protection.

Our Area of Benefit includes the Trent Lane Depot and at our meeting of 18th September 2012 the proposal to demolish the concrete warehouses on this site was discussed. It was resolved to write in support of the Save Trent Lane Depot campaign and express our view that the industrial heritage of this area is unique and historically important in Nottingham and should form a key element of any future development.

We therefore oppose the planned demolition and will support appropriate design proposals for the site that include adaptive reuse of the structures.

Yours sincerely,

Tom Hughes, Director

On behalf of Sneinton Alchemy Community Interest Company
